The number of international passengers at Swedavia's airports totalled 2,937,000 in July, which is a 2 per cent decrease compared to the same month last year. Domestic volume totalled 836,000 passengers, a decrease of 11 per cent.

Stockholm Arlanda Airport, Sweden's largest airport, had a total of 2,493,000 passengers in July, which is a 4 per cent decrease compared to the same month last year. The number of international passengers was 2, 178,000, which is a 3 per cent decrease, while the number of domestic passengers was 315 000, a 10 per cent decrease.

Göteborg Landvetter Airport had a total of 687,000 passengers in July, which is a 2 per cent decrease compared to the same month last year. The number of international passengers was 611,000, which is about the same figure as last year. However, domestic travel decreased 13 per cent compared to the same month last year, to 76,000 passengers.

At Bromma Stockholm Airport, there were a total of 157,000 passengers in July, which is a 7 per cent decrease compared to July 2018. However, international traffic increased a total of 35 per cent. In line with the traffic trend so far this year, Swedavia's regional airports show local differences in the travel pattern in July. Overall, international traffic decreased 12 per cent and domestic traffic decreased 10 per cent at the regional airports.

For many years, Swedavia has carried out ambitious sustainability work. All ten of its airports shall have zero emissions of fossil carbon dioxide from their own operations by 2020. Swedavia also works actively to promote the industry's transition to bio fuel and has the goal that five per cent of all fuel used to refuel aircraft at Swedish airports shall be fossil-free by 2025. Since 2016, Swedavia purchases bio fuel equivalent to the amount used for the company's flights for business purposes, about 450 tonnes a year.
